SUMMARY

An Enthusiastic Front-end Developer with a strong desire to learn and contribute to innovative web projects. A quick learner who is committed to stay updated on Industry trends and passionate for creating interactive and user-friendly websites. Eager to contribute my creativity and dedication for crafting visually appealing and user-friendly websites and contribute to the success of the dynamic development projects.

EDUCATION

B Tech	B Tech in Computer Science Engineering Guru Nanak Institute of Technical Campus, Hyderabad (2019-22) (8.6%)
Diploma	Diploma in Computer Science Engineering Megha institute of Engineering & Technology for Women, Hyderabad (2016-2019) (8.4%)
SSC	Amaravati Talent School, Hyderabad (2016 passed out) (8.3%)

SKILLS

Front-end Technologies: HTML, CSS, JavaScript, ReactJS, Redux, Typescript

Programming Languages: C, Java and Python

Databases: MySQL

IDEs/Tools: Eclipse, STS (Spring Tool Suite), Visual Studio, SQL Workbench

Version control System: Git, GitHub

EXPERIENCE

HCL Technologies

(Senior Software Engineer | (08/2022 – present))

- Joined HCL as a Fresher. Undergone internship for 5 months on JAVA along with a Sample Project (i.e., Employee based Management System) also with a behavioral boot camp.
- Converted to full time employee in the month of August 2022. As per the requirement gained some knowledge in spring boot- and worked on some internal scrum project (i.e., Resource Pool Management System (phase 1 and phase 2)).
- Undergone 8 weeks of full stack training and worked on POC's for better understanding also given Hacker rank test to test our knowledge.
- Participated in the hackathon challenge and worked on a use case i.e., Role based Management System (using spring boot)
- Deployed into Western Union project (from April 2023 to October 2023).
- Worked on Loyalty Management Project for both admin and customer portal.

- Worked on a POC (i.e., Movie Application) as instructed by my mentor using techstacks like ReactJS, Typescript, CSS along with JUnit test cases.

PROJECTS

Western Union (Amerigo Project)

- On boarded into Western Union in the month of April 2023 as a Front-end Developer. Undergone KT and gone through the required technologies as per the requirement of the project.
- Worked on different tasks related to UI designs, Feature Enhancement, Arabic translations and API Integration etc...,
- Worked with version control system like Git and GitHub to track code changes and collaborate the changes with other developers.
- Participated in daily scrum calls or meetings to discuss about the different issues.
- Always interacted with client for Demo resulting in increased customer understanding and satisfaction.
- After successful completion of the task I always prefer to document the code for further reference.

Loyalty Management

- Worked as a front-end developer who is responsible to integrate the new API's and modify the UI changes for both admin and customer portal for smooth handling of loyalty points.
- Also for demo created a full-fledged customer portal and Admin portal along with API Integration using techstacks like HTML, CSS, ReactJS, Typescript and Redux.

Movie Application

- Successfully created a Movie Application using Typescript where one can see all the movie details like (upcoming, trending and latest) along with the movie trailer here I am trying to fetch the data from an object. Also I have written some JUnit test cases for all the components used as instructed by my mentor.
